The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. k. Description of Request: Allete, Inc., licensee for the Blanchard Project No. 346, Sylvan Project No. 2454, Little Falls Project No. 2532, and the Pillager Project No. 2663, filed a request to accelerate the license term for the Blanchard Project and extend the license terms for the Sylvan, Little Falls, and Pillager projects to August 24, 2040, so that they would be relicensed concurrently. Currently the licenses for the Sylvan, Little Falls, and Pillager projects expire on March 31, 2028, and the license for the Blanchard Project expires on August 24, 2043. The licensee states that aligning the expiration dates for the projects would significantly enhance process efficiencies and allow for the combining of relicensing efforts for all the projects. In addition, the licensee states that aligning the expiration dates of adjacent projects would facilitate a more comprehensive analysis of common resources.
